Summary

Recently graduated with a bachelor's degree in computer application. I am eager to start my career as a React Developer. I have a solid foundation in front-end development, particularly with React, where I've honed my skills through various projects and coursework

Projects

1. Portfolio-creator and designer

Firstly I designed this portfolio in figma then I coded this portfolio using html ,css and javascript .In this portfolio I have described about myself like the project i made ,languages that i learn.

2. Shine cake website-creator and designer

This website is also designed in figma then i coded this in html/css and javascript .This website is made for selling cakes online .I added a payment collector also at the end.

3. I wanted to share my GitHub portfolio with you as I believe it showcases a range of projects that demonstrate my skills and passion for development
